PAY ATTORNEY

The #1 payment solution for law firms

Make it easy for your clients to pay on time by accepting online payments. With LawPay's secure, web-based technology, you can accept payments in your office, through a secure email link, on your website, or even on your mobile device.

Online payments developed for law firms

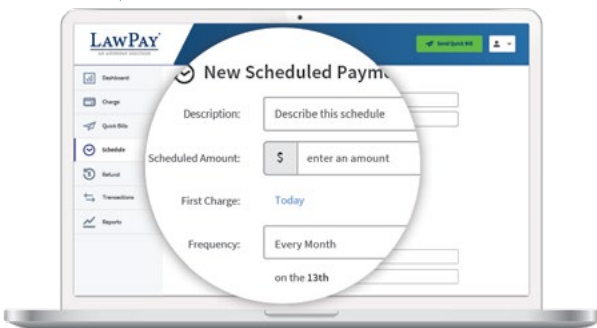

CUSTOMIZED PAYMENT PAGES

We create a secure, custom payment page for your firm that is hosted on our servers, eliminating the need for you to handle or store sensitive client card information or routing and account numbers. You can then link to these pages from your website, invoices, or emails.

PROTECTION OF IOLTA ACCOUNTS

No debits are allowed from your IOLTA at any time, for any reason, guaranteed. LawPay was developed with input from bar association partners and their ethics committees to ensure legal payments are handled correctly. All unearned fees are deposited into your IOLTA account, while earned fees deposit into your operating account.

SCHEDULED PAYMENTS

Plan transactions in advance with our Scheduled Payments feature and ensure you get paid on time. Simply arrange for a client's card or checking account to be charged at scheduled intervals and receive payment without having to re-collect or store payment details.

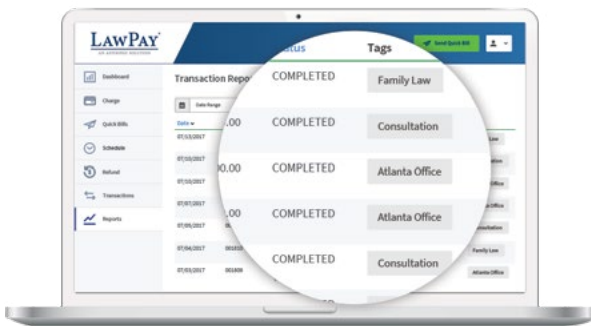

ADVANCED SECURITY

Our technology exceeds standards for internet security and PCI Level 1 compliance, and receives quarterly scans and an annual audit from a qualified security assessor. You can rest easy knowing your firm's data, and your clients' sensitive information, is guarded by advanced fraud protection, advanced risk protection, and data encryption measures.

COMPREHENSIVE REPORTING

Managing your practice is easier when you have the right information at your fingers. LawPay's reporting was developed to quickly see all deposit details for faster reconciliation. You can also "tag" transactions by partner, practice area, or location to create custom reports.

IN-HOUSE SUPPORT

Our in-house team of Certified Payments Professionals offers personal, friendly support by phone, live chat, or email. You'll never be hassled with confusing phone trees or automated responses. Get your questions answered by a real human in our office, every time.
